

Release Notes Order Portal sheet v2.10

1-Feb

Order

- **'Customs Status'** (cell G10) no longer mandatory for UK traffic (only for EU->EU shipments)
- **'EU Border Process'** (cell I10) removed, no longer useful

Consignment

- **'Gate In MRN Document Type'** (cell AO14) renamed for ease of use
- **'Place of Validity (Valid To)'** (cell AR14) – free text instead of drop down, for more flexibility to specify customs office code
- New field added*: **'Gate Out MRN Document Type'** (cell AS14), complementary to 'Gate Out MRN number' (both EU->UK & UK-> EU)
 - Selection options either 'Import' or 'Transit' (T1/T2)
- **'Type of Goods'** (cell AU14) – improved descriptions for selection options

Item

- New field added*: **'Dangerous Goods Packing Group'** (cell O22), only required in case of dangerous goods

Enhanced legenda descriptions & additional tab 'Release Info'

* The insert of a new field (column) implies the move of remaining fields to the right; this may require a change to your internal order sheet creation procedure
